

A NIGHT AT THE GALLERY

Tonight is our Gallery Grand Opening! Let's get together and create some art that could be hung in the Beaverbrook Art Gallery.

Print out the attached crow silhouette and cut it out. Tape the back of the silhouette and place it on black construction paper. Paint around the silhouette with any colours you like. When it is dry, delicately pull off the silhouette. Feel free to add some feathers to your art if you like with a glue stick!

Do you know the difference between a crow and a raven?

- Crows are smaller than ravens
- Crows usually travel in groups while ravens travel in pairs
- Crow tail feathers are the same length, while a raven's tail has longer middle feathers
- Ravens have bigger and curvier beaks than crows

↓ ADJUSTING THE DIFFICULTY ↑

If you're looking for a simpler idea, just glue feathers on the silhouette.

If you're looking for a challenge, skip the silhouette and draw by hand!
