7		2			6	4		

From women's eyes this doctrine I derive; They sparkle still the right Promethean fire; They are the books, the arts, the academies, That show, contain, and nourish all the world. Else, none at all in aught proves excellent.
-- Shakespeare

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
