

### \$5 Wall Art

Buy four small picture frames and a gift bag at a dollar store and make a cheerful piece of art to hang.

#### You will need:

- Four 4" X 6" picture frames
- Large gift bag with graphic image (8" X 12" or larger)
- Pencil
- Scissors

Display a picture of a completed [\\$5 Wall Art](#). Crafters will enjoy making them to display.

#### Directions:

1. Cut out the panel of the gift bag that has the image you want to frame. (You can discard the rest of the bag or use it for another project or as wrapping paper.)
2. Disassemble one of the frames and use the backing to trace four 4" X 6" rectangles side-by-side on the gift bag panel. Cut out the images following your pencil lines.
3. Place the images in the frames.
4. Hang the frames on your wall, butting the sides together to create an arrangement that looks like a four-panel window. **Tip:** To avoid making nail holes in your wall, use [mounting putty](#) to display your wall art.
