

Happy Camper Door Décor

Use the provided patterns and collage a vintage camper featuring a photo of you peeking out of a window.

You will need:

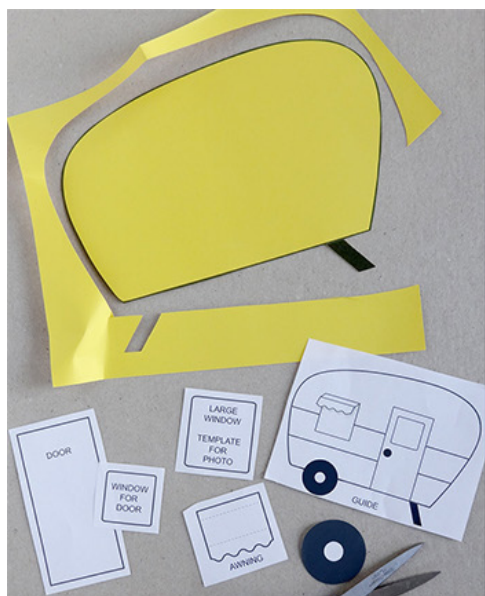

- [Camper design](#) printed on card stock (color of choice)
- [Patterns](#) printed on copy paper
- Photo of yourself (or friends, family, pet, etc.)
- Scrapbook paper (assorted colors/designs)
- 1/2" button
- Scotch tape
- Glue stick
- Ruler
- Scissors
- (Optional) Mounting putty

Display a picture of a [Happy Camper Door Décor](#) project with a fun photo in it to get crafters (and campers) excited to get going on this craft project.

Directions:

1. Cut out the camper following the black outline. Cut apart the patterns and guide, leaving a 1/4" border around the black outlines. Cut out the tire along the edge of the black circle.
2. Cut a 10" X 1 1/2" strip of scrapbook paper. Glue the strip and the tire to the camper as shown in the second photo on the following page.

3. Cut off the ends of the strip of scrapbook paper following the contour of the camper as shown above.
4. Tape the corners of the patterns for the awning, door, and window for door to scrapbook paper that's slightly larger than the patterns. Tape the large window pattern to the photo you're using. Fold the awning pattern and the attached paper as indicated with the dashed lines.
5. Cut out all the patterns/scrapbook paper. Glue the small window and button to the door.

6. Attach the awning to the photo, taping the back flap to the back of the photo as shown in the last photo above.

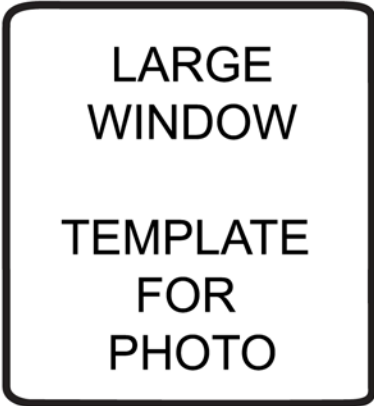

7. Frame the photo by gluing it to a piece of darker scrapbook paper and cut the paper out, leaving just a thin border as shown below.

8. Glue the window and door to the camper and fold the awning down so it sticks out. Use rolled tape or mounting putty to attach your Happy Camper to your door or wall.
