

### Paper Plate Frisbee

Decorate two paper plates and then glue them together to make a Frisbee that actually flies!

#### You will need:

- 2 paper plates
- Selection of markers, paint, colored pencils
- (Optional) Embellishments like stamps or stickers
- Tacky glue
- Scissors

Display a picture of a completed [Paper Plate Frisbee](#) to get crafters excited about this sporty project.

#### Directions:

1. Cut out the center circle of each plate. **Tip:** Save the circles for a future project.
2. Turn the plates upside down and decorate them.
3. Apply a thin bead of glue around the inside edge of one of the plates and then glue the plates together so the decorated sides face out. Let the glue dry for 15 minutes before flying your new Frisbee.
