Program Information

All of our programs require registration in order to ensure we are fully prepared with sufficient supplies and adequate space for everyone to safely and comfortably attend. Registration information will be listed with each program. Many programs and services are free. Fees are clearly noted where they are applicable.

We know that the best laid plans can go awry. **If you have registered for a program**, but are no longer able to attend, please contact the office to let us know that you will not be participating. Often there are waitlists for programs so you will be freeing up a space for another person to get the information they need! Thank you!

Program Cancellations

There are times when we have to cancel a program due to weather, facilitator illness, low registration or unforeseen circumstances. The Alzheimer Society will make every effort to cancel a program in a timely manner.

When inclement weather is in the forecast, consideration is given to weather warnings, bus cancellations and projected deterioration of conditions. For day of program cancellations, registered program participants will be notified by phone.

Cancellation notices will also be placed on social media and sent to news outlets. The safety of our clients and staff is a top concern so it is never our expectation for you to drive in poor weather. Please use your discretion.

What's it like to live with dementia?

“I just keep going on. I don't hide my diagnosis; I share with people what I am living with. It's just that the wires are crossed so I might do things differently. I like to be involved and participate in making decisions but it is easier for me to keep up with what is going on if it is slowed down. Then I can more easily participate.”

Dementia Friendly Communities

DEMENTIA FRIENDLY COMMUNITIES

A Dementia Friendly Community is a place where people living with dementia and their care partners are welcomed, included and supported. It is a community that pays attention to the social and physical needs of the person living with dementia.

As of 2022, there are over 600,000 people living with dementia in Canada, 28,000 of which are under the age of 65. By 2030, the number of people living with dementia will grow to almost a million.

Dementia is an umbrella term used to describe a group of symptoms that causes significant changes in the brain, severe enough to interfere with one's daily living. Changes can include memory loss, problems with language, and difficulty with familiar tasks, etc.

There are currently no treatments that can reverse cognitive decline brought on by dementia (i.e. Alzheimer's disease, Frontotemporal dementia, and Lewy Body dementia). However, there are approaches you can take that can help you fight symptoms and maintain your quality of life for as long as possible.

There are some conditions that can cause similar symptoms, such as a urinary tract infection or depression, but are treatable. With treatment of the condition, these symptoms can often be reversed.

10 WARNING SIGNS INCLUDE:

- Changes in mood and behaviour
- Problems with language
- Problems with abstract thinking
- Difficulty performing familiar tasks
- Misplacing things
- Loss of initiative
- Disorientation in time and space
- Memory problems that affect daily life
- Changes in personality
- Impaired judgement

COMMUNICATION TIPS INCLUDE:

- Reduce distractions
- Make eye contact
- Use short, simple sentences
- Approach from the front in an open and friendly manner
- Ask how you can help
- Avoid making assumptions
- Offer simple choices
- Provide clear instructions
- Recognize how the person might be perceiving the situation
- Offer reassurance
- Connect – don't correct
- Observe the person's actions and body language.

6 out of 10 people living with dementia will go missing at some point throughout the progression of the disease, often without warning. **If you suspect the person is lost, call 9-1-1 right away and wait with the person until police arrive.**

When thinking about dementia friendly design, we need to think about the physical environment and consider: signage/wayfinding, entrances and lighting, flooring, seating, waiting areas, washrooms, background noise, and surfaces.

Do you want your organization/business to be dementia friendly? We'll come to you!

Technical Support

ACCESSING OUR ONLINE PROGRAMS AND SERVICES

The online platform we use for all our Education, Support and Social Recreation programs is called Zoom. Zoom is an application that allows users to make free video calls with individuals or groups of people.

All that is required to use Zoom is:

- a laptop, tablet or smartphone
- a connection to the internet
- an email address

Once you register for a program, a staff member will send you an email with a link to the session. When it is time for the program to begin, click the link and the session will open up.

We know it can be overwhelming to try something new and perhaps out of your comfort zone. That's why our staff team will help walk you through this process by sharing tip sheets and providing 1:1 support to help you get started!

We have taken safeguards to protect these sessions for registered participants only. Please contact our staff team if you have any questions.

Support Services

We provide free dementia support to anyone impacted by any type of dementia, whether you are a person living with dementia or their family member, friend, or care partner.

Our Support Services Team are go-to persons for families after a dementia diagnosis and can help with identifying needs, navigating services and assisting with care planning throughout the dementia journey.

Our Supportive Counselling and Navigation services are offered over the phone, by email, video conference and in-person visits by appointment. In-person visits may be conducted at our Barrie & Orillia office locations or in a person's home.

Supportive Counselling

Our team of Family Support Coordinators provide safe, confidential counselling where you can talk about your experience, gain insight and practical coping strategies to help you manage circumstances and build resiliency. Staff can help you plan for the future and get connected to other local services.

First Link[®] Care Navigation

Get the assistance you need connecting to various dementia support and services. Our highly experienced First Link Care Navigator can help get you started, create a support plan and link you with dementia supports in the community.

To access our supportive counselling or navigation services, please contact our office at 705-722-1066 to begin the intake process.

Make a difference!

Volunteers help to support our organization in many ways - from volunteering in our programs to fundraising events to joining our Board of Directors. We need volunteers of all backgrounds, skills and interests!

Donations

Donating to the Alzheimer Society of Simcoe County is investing in the health and well-being of persons living with dementia in our community. We depend on the generosity of our donors for more than 40 per cent of our annual budget and your gift helps us to accelerate our mission to provide the best care & support to those living with dementia. All donations to the Alzheimer Society of Simcoe County stay in the Simcoe County to provide information, education, support and counselling services to affected individuals and their families and caregivers.

Memorial Donations

Honour the passing of a loved one or friend by making a donation in their memory. Donations can be made through a funeral home or directly to the Alzheimer Society of Simcoe County. The Society will send a note to the family informing them that a donation has been made by you in memory of their family member.

In Honour (Tribute) Donations

Donations can be made in honour of a birthday, wedding anniversary, retirement or any special occasion. A note will be sent to the individual informing them that a donation has been made in their honour.

Legacy Donations

The most common type of legacy gift is a charitable bequest in a person's Will. However, Canadians are realizing the benefits of giving gifts of registered assets, life insurance policies, annuities, and charitable remainder trusts. We can have a conversation with you and your advisers to determine if a legacy gift fits your desires, financial objectives, family needs, tax situation and our funding objectives. All discussions are confidential and will not obligate you to make a gift.

The Alzheimer Society of Simcoe County strongly recommends that you seek professional advice to ensure your financial goals are considered, your tax situation reviewed, and your legacy gift is tailored to your circumstances.

What is Connect Us?

Connect Us is a community collaboration between partners that specialize in older adult care in Simcoe County and Muskoka. It is a virtual community-building program that aims to connect older adults to community members of all ages to share their stories, interests, and skills.

Why Participate?

This opportunity will help Older Adults to:

- Increase their digital literacy and familiarity with technology, improving their ability to participate in additional community activities and decrease the distance that separates people.
- Share their knowledge, interests, and stories with students and other community members.
- Create something meaningful (e.g., art, music playlist, written stories) to capture their memories and personal stories.

How It Works

- A Georgian College student will be matched with an Older Adult (the 'storyteller') and another community member with shared interests (the 'story listener').
- The three participants will meet virtually once or twice a week (1hr) for 6-8 weeks, to form a small community to support the storyteller's personal goals around community building and digital literacy.
- Together, the storyteller, student, and story listener will work virtually to create something of personal significance for the storyteller that can be shared with the older adult's family and friends or even the community, if the storyteller wishes.
