

Alzheimer Society

SIMCOE COUNTY

JOB POSTING ENHANCING CARE PROGRAM CLINICIAN

Status: Full-Time Contract (to March 31, 2025, with the possibility of extension dependent upon funding)

Reports to: Manager of Education and Support Programs

The Alzheimer Society of Simcoe County is a registered nonprofit, charitable organization that provides education, support services, and social programs to those living with Alzheimer's disease or a related dementia, their care partners, families, and others living in Simcoe County.

Position Summary:

The Alzheimer Society of Simcoe County ("ASSC") is a partner site for the delivery of specialized programs developed at the *The Cyril and Dorothy, Joel and Jill Reitman Centre for Alzheimer's Support and Training* at Sinai Health System ("the Reitman Centre"). The Reitman Centre programs have been designed to specifically address the complex needs and challenges of informal care partners taking care of persons with dementia at home. This extensive suite of programs will assist in sustaining family care partners who are clients of the ASSC. The programs deliver unique, targeted, and tailored skill-building interventions to address the complex mix of factors that affect care partners' ability to cope and adapt to the new role of a care partner. The program combines therapeutic principles for managing care partner stress and burden with novel approaches to education and skills training and formal problem-solving techniques. The goal is to equip care partners to better manage the day-to-day care of the person living with dementia, and to address emotional stress and reduce levels of care partner burden.

Responsibilities:

- Assesses, plans, implements, and evaluates client-centred care for care partners of persons living with dementia, in group and individual therapy.
- Administers standardized mental health assessment instruments as part of outcome evaluation.
- Communicates and collaborates with the local team and network of other Reitman Centre Enhancing Care program clinicians in Ontario to provide continuity of care in all settings.
- Participates in the creation, evaluation, and publication of client and educator resources.
- Contributes positively to client care through the application of research-based practice.
- Organizes, leads, and implements care partner mental health community education programs.
- Develops and implements strategies and tools for dissemination of the Reitman Centre interventions in traditional and non-traditional community settings.
- Identifies community resources for the clinical population served.
- Develops, leads, and implements programs including community outreach and liaison.
- Consistently attends mentorship and/or supervision meetings with other Reitman Centre Enhancing Care program clinicians in the province.

QUALIFICATIONS AND SKILLS:

Education:

- Minimum bachelor's degree or equivalent in social work (preferred), nursing, occupational therapy, psychology, or related clinical discipline. Master's level education preferred
- Current membership in good standing with regulatory college that can perform the controlled act of psychotherapy.

Experience:

- 2 years recent clinical experience in dementia programs and/or dementia care partner programs.
- Experience and demonstrated skills in individual and group adult and older adult psychotherapy.
- Experience with management of behavioural responses in dementia.

Other Knowledge, Skills, & Abilities:

- Excellent communication skills - written and verbal communication.
- Excellent interpersonal, organizational, and oral (presentation) skills required.
- Experience utilizing technology and internet-based counselling interventions.
- Experience conducting arts-based or other media-based groups (e.g., music) for persons with dementia an asset.
- Experience working in simulation-based health care is an asset.
- French or other second language fluency, an asset.
- Demonstrated ability to work and communicate collaboratively and effectively in a complex environment, with both internal and external stakeholders and partners.
- Results-oriented, with a positive “can do” attitude.
- Ability to work effectively in a fast-paced multi-tasking environment.
- Well-developed analytical, problem-solving, and change management skills.
- Demonstrated ability to work independently and within a team.
- Expertise and experience in cultural sensitivity and diversity.
- Demonstrated satisfactory work performance and attendance history.

Further Requirements

- Ability to work evenings and weekends as required to meet the demands of the program and the ASSC.
- Must have insured vehicle and be able to travel throughout Simcoe County.
- No special physical demands are required beyond the performance of general office duties.
- The successful candidate will be required to provide a clear, recent police check inclusive of a vulnerable persons check, conducted within the last two months.
- **ASSC requires that you be fully vaccinated for COVID-19, subject to any accommodation obligations it may have under human rights legislation.**

TO APPLY:

- Please submit your application by email to Laura-Lynn Bourassa, Manager, Education & Support Programs at lbouassa@alzheimersociety.ca quoting ***Enhancing Care Program Clinician*** in the subject title.
- **Salary expectations must be submitted** along with a letter of application.
- No phone calls please. We thank you for your interest in applying to the Alzheimer Society of Simcoe County; however, only candidates selected for an interview will be contacted.

ASSC celebrates diversity and strives for equity and inclusion. ASSC welcomes and encourages applications from people with disabilities. Accommodations are available on request for candidates taking part in all aspects of the selection process.
