

ALZHEIMER SOCIETY OF B.C. AND TYZE PERSONAL NETWORKS

WHAT IS TYZE?

Tyze is a **private** online community, focused around the care and support of an individual – for example, a person with dementia or a caregiver. We all need help at times, and coordinating the assistance we need can be challenging. Creating a Tyze network is quick, easy and a great first step in helping to ensure your care needs are being met.

GET ORGANIZED

Tyze makes it easier to manage the daily care needs for you or someone you are caring for through the shared calendar feature. Plan out your calendar in Tyze so your circle of care knows what you need and when you need it. Tyze gives you the confidence that help will be there.

BUILD YOUR NETWORK

You are not alone! Invite your family, friends and neighbors to rally around you and share the caregiving tasks. Tyze provides an easy, private way to share your care needs and updates.

SIMPLIFY

Tyze makes it easy to reach out to your entire network with one message. You and your circle of care will know exactly which care requests still need to be filled. Your supporters will be well-informed and able to actively engage in making sure your care needs are met.

COMMUNICATE SECURELY

Through Tyze, you can send messages to individuals or groups of individuals within your network. Your health care team can also be invited to join your Tyze network which means everyone can stay informed about changes to your clinical care plan. Your privacy is assured as only those you choose to invite into your network have any visibility to the information shared.

SHARE

The CareWall makes it easy to share updates, photos, videos and encouragement with one another online. Staying connected is simple, quick and **private** so your trusted care community is able to communicate freely in their support and encouragement.

LEARN

A library of resources is available to you and your circle of care. Resources are kept up to date with new information being added regularly.

What can Tyze do for me?

Tyze can help you:

- Organize appointments
- Store private documents
- Ask for help and support
- Send updates quickly and easily to network members
- Share stories, photos, videos, information and resources

How much does Tyze cost?

There is no cost for people who sign up through the Alzheimer Society of B.C.

Do I need to install any software to use Tyze?

No. Setting up a network is quick and easy. You don't need to install any special software.

How do I sign up for a Tyze network?

- Connect with a staff person in your local resource centre and ask them to send you a personalized email invitation.
- Send an email directly to lkelly@alzheimerbc.org requesting a personalized email invitation. Please include your full name and the city in which you live.
