Alzheimer Society

DURHAM REGION

Dr. Noelannah Neubauer is a Postdoctoral Fellow at the University of Waterloo and is an occupational therapy student at the University of Alberta. She completed her PhD in Rehabilitation Science at the University of Alberta August 2019 under the supervision of Dr. Lili Liu, where she focused on developing a framework and series of guidelines to manage the risks associated with critical dementia-related wandering. Dr. Neubauer is the co-founder of the International Consortium on Dementia and Wayfinding. Her research interests are vast and include dementia, wayfinding, assistive technologies, policy and aging in place.

Ron Beleno was a caregiver to his father, who lived with Alzheimer's for more than 10 years before passing in January 2018. Beleno is an active advocate for the dementia, caregiving, aging and research communities across Canada and Internationally. He shares his personal experiences and offers deep insights about caregiving as we age, ways to use technology for caring and living safely with dementia, with a specific focus for those at risk of wandering and going missing. He is active with numerous organizations, including AGE-WELL NCE, Centre for Aging and Brain Health Innovation at Baycrest, City of Toronto's Seniors Strategy, SE Health (formerly known as Saint Elizabeth Health) and the Translational Research Program at the University of Toronto's Faculty of Medicine.
