Monday, June 13, 2016

**SPONSORSHIP
PACKAGE 2016**

OUR MISSION

Since its founding in 1989, the Alzheimer Society of Oxford has worked diligently to fulfill its mission: "To improve the quality of life for people and their caregivers living with Alzheimer's disease or related dementias." This disease can be a very difficult and lonely journey, both for the person with the disease, and for their family members. The purpose of our organization from its inception has been to ensure that no one has to make this journey alone.

In Oxford County, there are over 2,000 individuals living with dementia. By 2028, this figure is expected to rise to 2,561 - an increase of 28%! Aging baby boomers and longer life expectancy rates will only help to fuel the crisis.

The Alzheimer Society of Oxford provides support services and education for individuals and families throughout Oxford County, as well as their caregivers, health professionals and the general public. Funding research is also part of our mandate.

THE EVENT

The Alzheimer Society of Oxford's Annual Golf Tournament, now in its 26th year, continues to be a very popular event, with many of our sponsors and golfers returning year after year. The beautiful course at Craigowan is always a big attraction to golfers.

Because government funding only provides 60% of our operational budget, we rely on generous community support to help us provide group and individual support, education programs, and a number of social recreation programs - all at no cost to our clients.

Sponsoring our tournament is an excellent way to support the services of the Alzheimer Society of Oxford and provide exposure for your business. Please consider the Sponsorship Opportunities as detailed on the reverse of this page and help ensure that services will be available for every person in our community faced with a diagnosis of Alzheimer's disease or another form of dementia. Thank you!

BENEFITS OF SPONSORSHIP

By supporting this event, you will make a tangible impact on the quality of life for hundreds of individuals who are navigating the challenges of dementia in our community. All funds raised will be directed to local programs and services, delivered at no cost to our clients.
