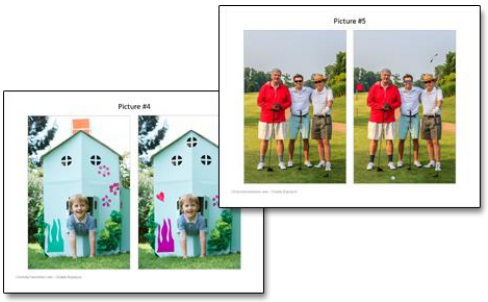
Double Exposure



Here are double prints of what looks like the same picture. However, if you look closely, there are five things that are missing or have been changed in the second print.

How to use the pictures:

1. Print the pictures and circle the differences between the two. Or point at your screen and look for 5 differences.

Double Exposure

(solution)

Picture

1. The chimney is missing.
2. There is a third window at the top.
3. The painted flower on the right is missing.
4. There is a heart on the left.
5. The green
