The following are some of the highlights of this growth:

- 95 referral partners and 813 new families receiving support and early intervention services needed to better prepare for their journey with Alzheimer's disease and dementia
- Hosted the annual Enhancing Care Conference
- Free Caregiver Support Network in 10 communities
- Free Alzheimer Journey Education Program in 10 communities and pilot of the third series: Care in the Later Stages
- Pilot of Minds in Motion, a free physical activity and mental stimulation health program
- Pilot of Creative Minds, a therapeutic art program

Since the implementation of the First Link Program in 2015, the ASNB has been focused on growing referral partners and being able to offer more of our programs in a growing number of communities.
